In addition, including and parking for each unit with optional storage. Located just 30 minutes drive from Alicante airport, Guardamar del Segura is much more than golden sand beaches that extend as far as the eye can see. It has the privilege of enjoying the warmest marine waters of Spain and its 7 beaches of high ecological value, which add up to 10 km of coastline, is by far one of the most beautiful and unique environments of the sea, with the coastal

pine forests, Eucalyptus, cypress and palm trees. Well known for its mild temperature and the lowest rainfall in Europe, it is the ideal place to practice water sports, such as sailing, fishing, windsurfing, kayaking and jet skis throughout the year. The average water temperature is around 20 ° C during the winter months, which makes seeing swimmers a very common scenario, especially those coming from northern Europe. Less than 40 km from the cosmopolitan Alicante , the old Murcia or the charming Elche, Guardamar offers fun activities and tourist visits for all budgets and ages. Ideal destination for golfers, cyclists and hikers, and even for those interested in the historic field with its important landmarks and findings. The cuisine of Guardamar is also known, with delicious rice dishes and abundant seafood.
