Old price	-

DESCRIPTION

Apartment in the village of Polop de la Marina. It has incredible views of the mountain of Ponoig. It has northwest orientation. It is higher than the rest of the buildings in the village and has spectacular views that will never be obstructed. You can breathe a lot of tranquility in this area. Most of the neighbors are Norwegians along with some Englishmen. They have completely renovated the common areas such as the communal pool, which has an Olympic size. Everything is very well maintained. There is private outdoor parking but there is the possibility to buy a garage. The apartment was completely renovated in 2019, just before Covid. No one has lived since, only on vacation. The appliances are completely new, both the vitro, dishwasher, washing machine and refrigerator are top quality and brand new. Close to the Dia supermarket in Polop and many other good restaurants such as Carbon and Unoom in La Nucia.
