DESCRIPTION

In a green and residential area of Altea la Vella, this beautiful villa has been built on a flat plot with an optimal use of the space. The South facing orientation makes the salt water pool (heated) an attraction for the whole day with the naya from natural material and the covered terrace as a lounge area. The garden has been made low maintenance with a Mediterranean touch and is very private. On the ground floor is the entrance, guest toilet, large living room with dining corner and open plan kitchen and the master bedroom with bathroom en-suite and closets. On the first floor are two more big bedrooms which share a big bathroom with bathtub and which share a terrace, over the total width of the house, with sea views. From the drive way you easily enter the garage which has space for 2 big cars and has 2 extra storage rooms as well. The house has double glazed windows, airco, central heating and a fireplace cassette. The ideal villa to live in whole year long or as a holiday villa. Absolutely worth a visit!
