DESCRIPTION

The newly built villa that is being projected in the town of Altea is a high quality property, distributed over three floors, which is characterized by its modern and functional design, and by its complete equipment with stateoftheart technologies. In the basement, you will find a garage with capacity for two cars and ample storage space. On the ground floor, there is a spacious and bright living room with open kitchen, fully furnished and equipped with top brand appliances, which integrates

perfectly into the modern and sophisticated environment that is sought to transmit in the property. Also, on this floor, there is a toilet. From the living room, there is access to a beautiful terrace with views, which communicates with a modern style pool. On the upper floor, there are three bedrooms, two bathrooms and another terrace with jacuzzi. The bedrooms, designed to provide maximum comfort and wellbeing to its inhabitants, are spacious, bright and characterized by their excellent distribution and equipment. The house has air conditioning ducts and underfloor heating, which guarantees a pleasant temperature at all times of the year. In short, the newly built villa in Altea is presented as a high quality property, which combines design and functionality, and which is equipped with all the comforts and latest generation technologies, to provide its future inhabitants with an unbeatable life experience.
